

Company Profile

Engineering Contracting Company (ECC L.L.C) was established in 1975, and is one of the most established and diverse contracting companies in the region, offering unified construction services through its integration with ECC Group. Since then, ECC has built a reputation which is synonymous with quality, efficiency and speed and with a track-record of innovative and challenging projects, it is able to deliver dynamic solutions to its clients at all stages of construction.

ECC has grown in size since its inception, recently delivering an 8% growth in revenues for 2016, and currently employs over 9,000 people, and a large support and operations team. The Company has an unlimited height license, and has completed an extensive variety of projects in different categories.

ECC thrives on challenging projects and innovation, continually enhancing its systems, procedures and processes in order to be at the forefront of the industry. ECC's mission is to continually develop and improve its standards and systems in order to deliver the highest quality service and built projects, in a cost effective and efficient manner. In addition, ECC has the ability to offer its clients dynamic engineering solutions across multiple design disciplines in order to deliver the most cost efficient product to the Client.

Through its integration with ECC Group, the associated companies and entities, such as Abanos Fit-out and Joinery, Prime Metal Industries (PMI), Aurora Real Estate Development, CoreServ Facilities Management, and United Masters Electromechanical (UME), and ECC Renovations, ECC is able to provide a one stop shop for its clients. By doing so, ECC maximises quality control, efficiency in communication and teamwork, and deliverability of the project in terms of a reduction in disputes.

ECC has received multiple highly recognized appreciation awards from companies, such as Dubai Municipality and ADNOC, for its performance in delivering and executing state of the art projects, and it has also developed a distinguished reputation of prioritising the project above everything else.

ECC clients, to name a few, include: Dubai World Trade Centre (DWTC), The Ruler's Office, Dubai Municipality, Emirates Tele-Communications Corp. (Etisalat), Dubai Properties, Emaar Properties, Nshama, Abu Dhabi National Oil Company (ADNOC), Union Properties, Dubai Festival City (DFC), Deyar, Damac, Zayed University, and the Roads and Transport Authority (RTA).
