

e-mosty

The magazine **e-mosty** (“e-bridges”) is an international, interactive, peer-reviewed magazine about bridges.

It is published on www.e-mosty.cz and can be read free of charge (open access) with possibility to subscribe.

It is published quarterly: 20 March, 20 June, 20 September and 20 December.

The magazines stay **available on-line** on our website.

It is also possible to download them as **pdf**.

The magazine **brings original articles about bridges and bridge engineers** from around the world. Its electronic form enables publishing of high-quality photos, videos, drawings, links etc.

We aim to include **all important and technical information** and show the grace and beauty of the structures.

Editorial Plan

We are happy to provide **media support** for important bridge conferences, educational activities, charitable projects, books etc.

Our **Editorial Board** comprises bridge engineers and experts from the UK, US and Australia.

The readers are mainly bridge engineers, designers, constructors and managers of construction companies, university lecturers and students, or people who just love bridges.

Additional Information

The magazine e-mosty (“e-bridges”) is an **international, interactive, peer-reviewed magazine about bridges published quarterly on www.e-mosty.cz**

It is **open access with a possibility to subscribe**.

It was established in April 2015 and its first issue was released on 20 June 2015 as a bilingual Czech – English magazine aimed mainly for Czech and Slovak bridge engineers.

Very quickly it reached an international readership.

In 2016 we extended the already existing Czech and Slovak editorial board by two bridge experts from the UK, and in 2017 two colleagues – from the USA and Australia – joined us.

Since December 2016 the magazine has been published solely in English.

Each issue now has **thousands of readers worldwide**.

Generally the readership has reached almost **10 000 in two years**.

Many of our readers share the magazine in their companies and among their colleagues so the final number of readers is much higher.

Most importantly the **readership covers our target segment** – managers in construction companies, bridge designers and engineers, universities and other bridge related experts.

We also know that the readers usually go back to older issues.
